Additional Talkgroup Setup Fee	\$200	Per Talkgroup (one-time charge)
Voice Mail Activation Fee	\$10	Per satellite terminal (one-time charge)

*Per minute charges apply to voice (telephone), fax, or data airtime use only.

NOTES

- All MSV Satellite Dispatch Service rate plans require a **1-year minimum contract commitment**.
- Subscribers must have a billing address in the United States or its territories.
- Actual coverage is subject to verification. Performance may vary due to look angle and line-of-sight constraints. Feature availability may vary by manufacturer and configuration of phone and antenna.
- Airtime rate per minute also applies to airtime usage for voicemail, other call management features and fax or data. Each partial minute of airtime is billed as a full minute for Satellite Telephone Service.
- Long distance toll rates included in the per minute airtime rate for all calls terminated in the continental United States, Alaska, and Hawaii. International calls are billed at the per minute airtime rate plus applicable international toll (based on AT&T's residential direct dialing rates -- see <http://www.consumer.att.com/global/english/>). International tolls are rated to the prevailing Eastern Time and may vary by time of day.
- There is an extra \$10 set-up fee for each call management feature requested. (ie: call waiting, call forwarding, voicemail, etc.)
- Rates subject to change.
- The one time suspension fee is applied at the time of suspension. There is no cost to reactivate a suspended unit.

These rate plans apply to all MSV type approved satellite terminals, except for aeronautical configurations.
